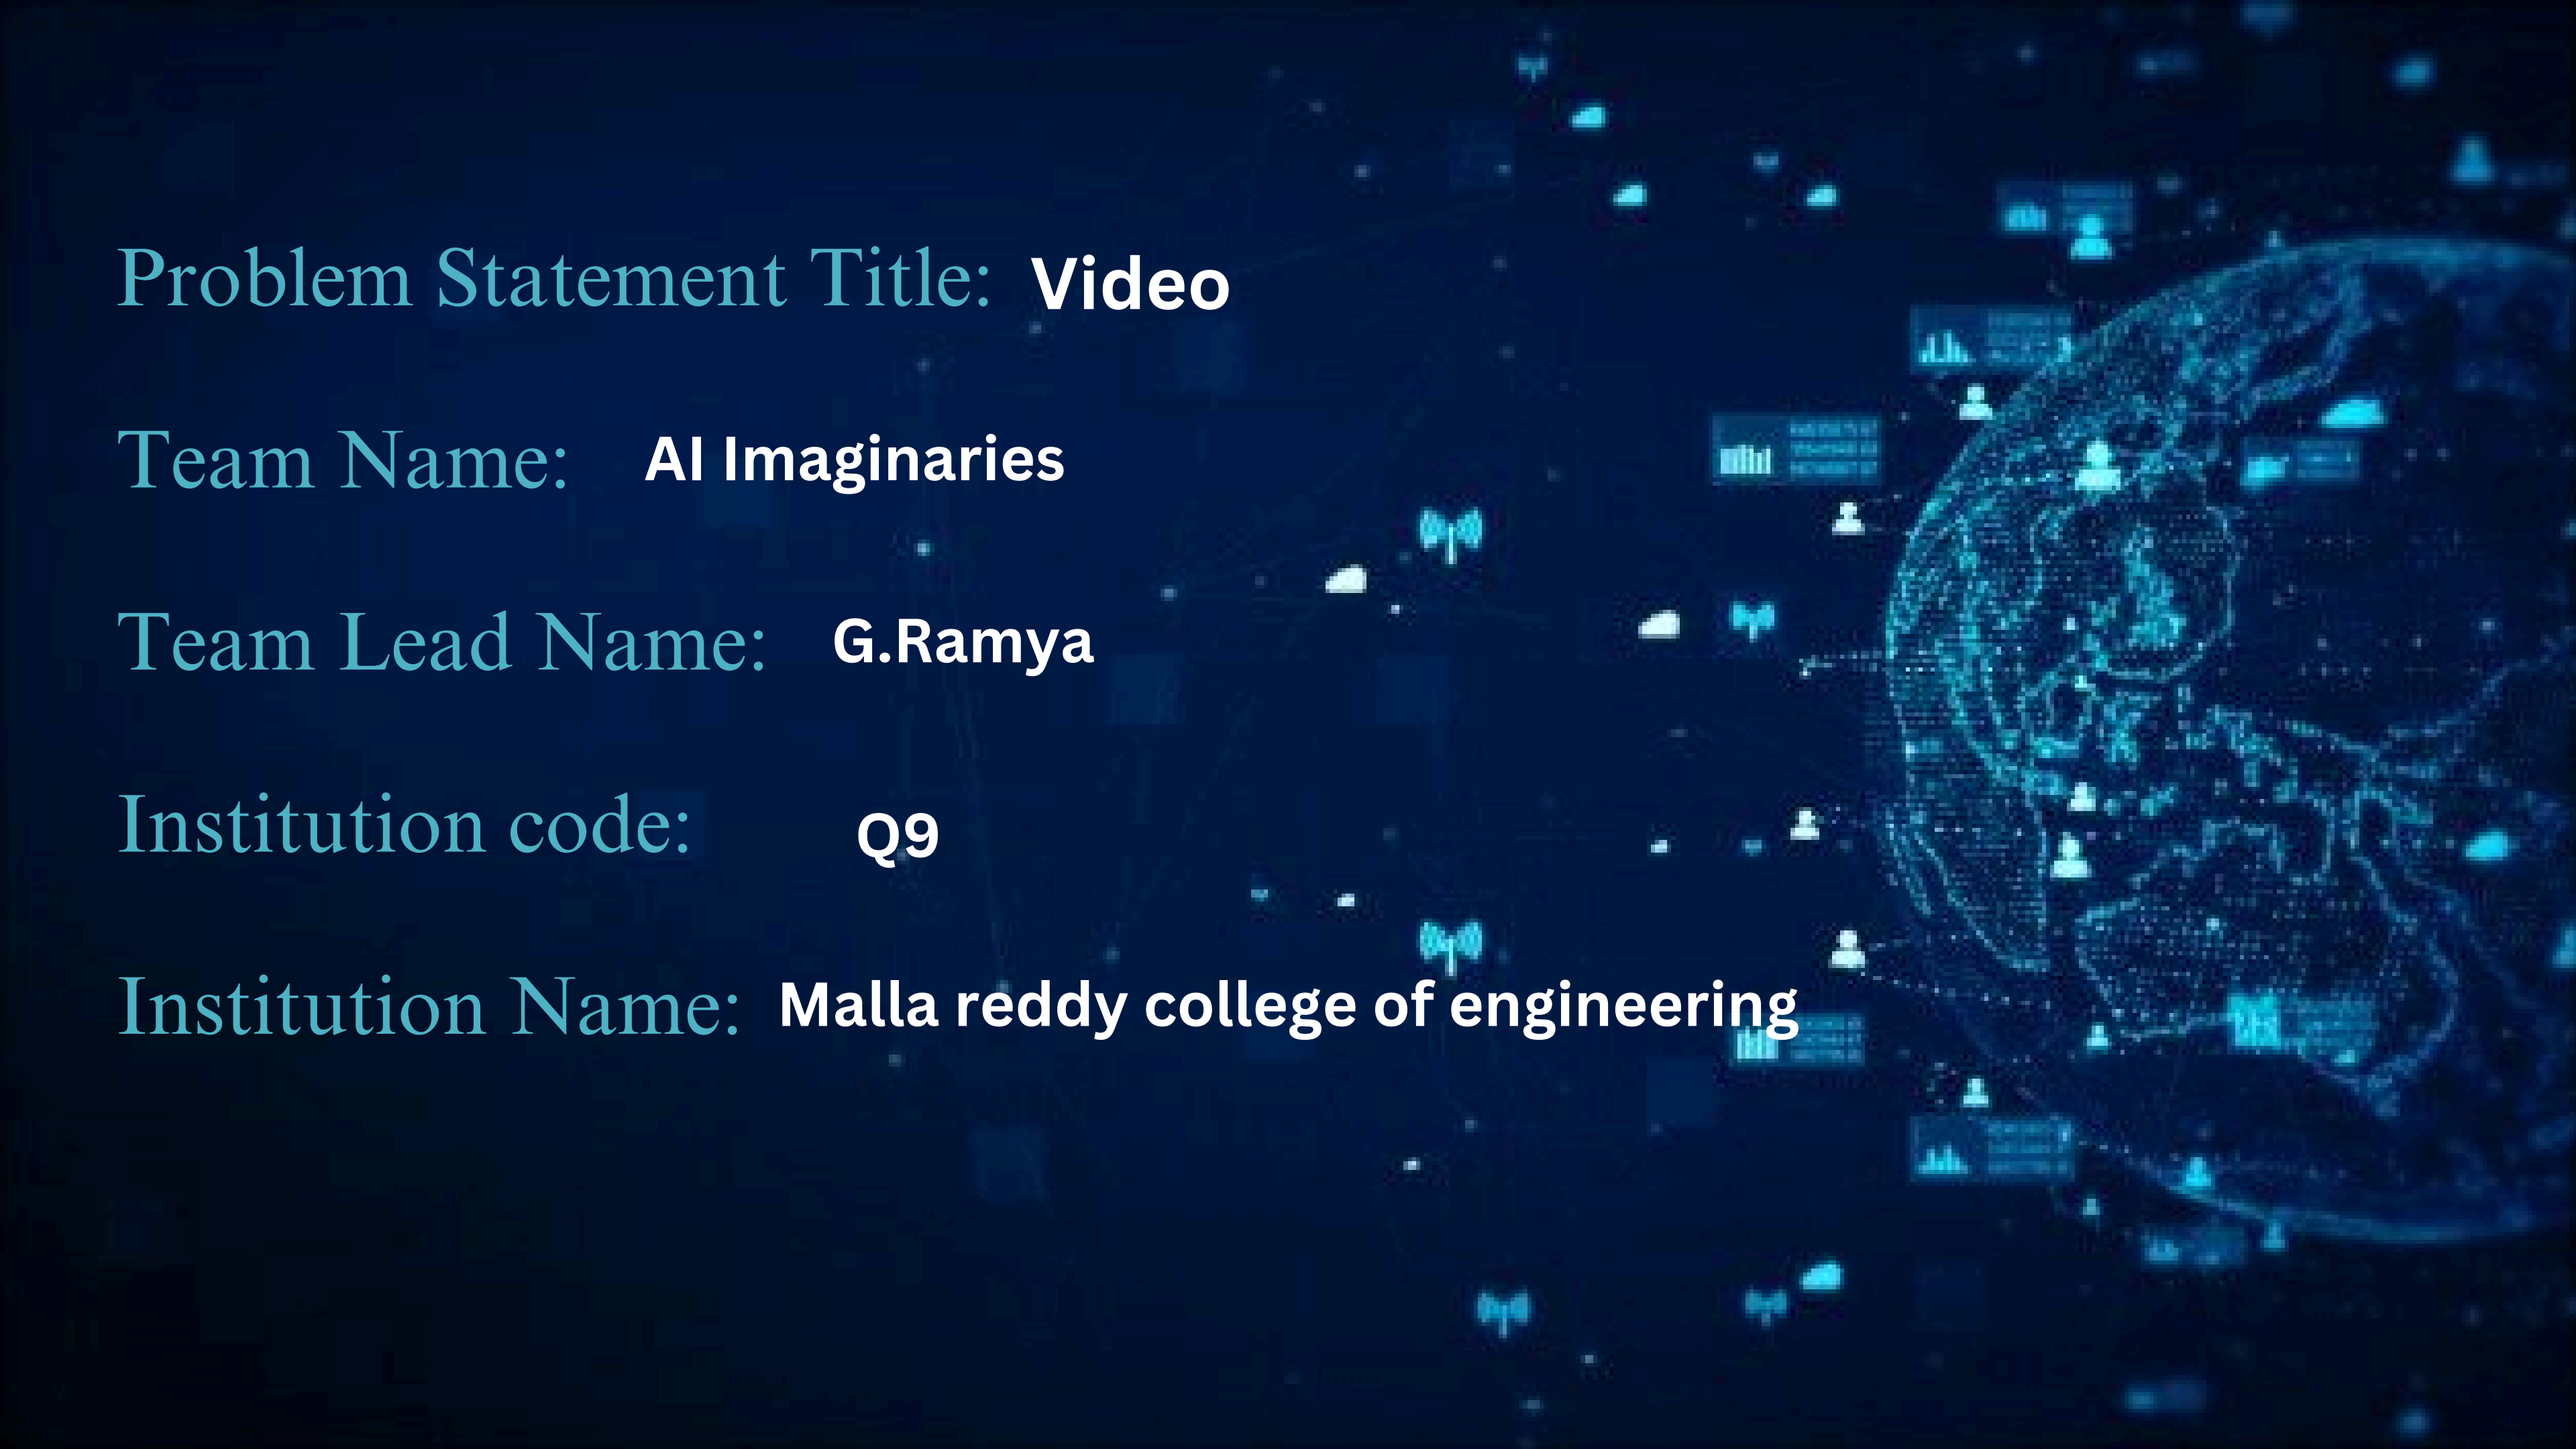
Problem Statement Title: **Video**

Team Name: **AI Imaginaries**

Team Lead Name: **G.Ramya**

Institution code: **Q9**

Institution Name: **Malla reddy college of engineering**



Idea / Probleam statement:

Transforming Regional Folk Stories into Animated Short Films

Idea Solution:

This AI Tool helps turn regional folk stories into animated short films. Users upload stories, and the app creates voiceovers in local accents, animated videos in traditional art styles, and adds region-specific music and sounds. The app is easy to use, allowing users to adjust and preview the video. Once complete, they can share or download their short films, preserving and showcasing local cultures.
